Director's Notes

Greetings!

Welcome to "Amistad We Stand." a performance in celebration of Black History and Humanity. Amistad is a Spanish word meaning Friendship. As a choreographer and humanist living in the world, I am compelled to embrace many things happening around me, as these stories constantly affect my life and creativity. This year's theme, "Amistad We Stand", approaches the need to embrace every race, ethnicity, sexual orientation and religious background in order to build a community that strongly believes in the power of diversity. Diversity will help us journey to the shining stars, and if coupled with inclusion, our lights will burn longer. Black history has been remembered and celebrated in many forms and ways, and this history intertwines in everyone's history. Together we are better, smarter, and stronger.

I am most grateful to have had the opportunity and pleasure of sharing my artistic vision through my creative movements with these talented students, guest musicians, artists and the wonderful production crew.

I am dancing towards the future where the fight for the struggle to gain human and equal rights will be a thing of the past. A future where changes come from the power of many, but only when the many can come together to form that which is invincible. I hope you will join me!

Enjoy the Show!
